

SEKKISEI?

Covering over **15 countries and areas**

SEKKISEI, loved since 1985.
SEKKISEI's promise of beautiful, translucent skin is best captured by the image of a dazzling field of fresh snow.

Why do I use Sekkisei?

It can be used every day, comfortable with its unique texture.

After gently applying the lotion, it will melt like white snow. Deeply absorbed by the skin and power deeper. The skin feels refreshed after use, moisture rich by moisture from the inside to be outside.

The reason for this is that the superb technology given by SEKKISEI makes the fine skin care particles and evenly spread in the skin. A sophisticated formula that combines an oil and oil for superior skin absorption and a deep penetration of heavy ingredients.

*Only in the main component.

Bring the gentleness and power of oriental herbal ingredients strictly selected from over 100 sorts to realize a translucent skin.

ORIENTAL PLANTS?

Since ancient times, people have used herbs for health and beauty. Now, from precious nature we bring the gentleness and power of oriental herbal ingredients selected from over 100 sorts to your skin.

100 sorts? Guess this should be the secret of SEKKISEI for generating translucent skin.

Cox Seed Extract
Hydrates the skin and prevents roughness. Extracted from the seeds of annual plants originating from China and Indochina.

Angelica Extract
Often used in both liquids. Expected to have hydrating effects.

Melothria Heterophylla Extract (White Lotus)
Extracted from the roots of Melothria, it is said that the extract has been used for achieving beautiful skin since ancient times in China. Highly moisturizing, it is also rich in NMF-constituents and amino acids.
